

DTR SUMMIT

The Non-Appliance Approach to Treating Occluso-Muscle Disorders

Join Drs. Ben Sutter & Robert Kerstein as they share a method of treating patients with headaches and TMD pain in this hands-on, clinical workshop. Participants will receive 16 hours of CE credit upon seminar completion.

COURSE OVERVIEW

Registration begins at 8am, course ends at 4:30pm. Breakfast, lunch, and break is provided.

This course will teach you a minimally invasive way to diagnose and treat patients experiencing TMD signs and symptoms through managing occlusion. Learn from two of the leaders in Disclusion Time Reduction (DTR) Therapy, Drs. Robert Kerstein and Ben Sutter, through lectures, live patient treatment, and hands-on workshops.

COURSE ATTENDEES WILL:

- Define Disclusion Time Reduction (DTR) Therapy and explore the science and research behind it
- Evaluate and diagnose clinical DTR cases
- Gain skills and interpreting data with hands-on clinical demonstrations for occlusal analysis
- Demonstrate what you learn to live patient treatment
- Assess when and when not to treat patients with DTR
- Formulate how DTR can be applied to other areas of dentistry

This course will be a combination of lecture and demonstration.

ADA CERP® Continuing Education Recognition Program

CE Credit: 16 hours upon seminar completion by Big Sky Seminars. All paid meeting registrations will be refunded totally on or before September 12, 2018. After that date, registrants will be refunded half of the tuition. If the course is cancelled for any reason, registrants will receive a full refund.

This continuing education activity has been planned and implemented in accordance with the standards of the ADA CERP through joint sponsorship between Big Sky Seminars and Tekscan, Inc. Big Sky Seminars designates this activity for 6 hours continuing education credit. ADA CERP is a service of the American Dental Association to assist dental professionals in identifying quality providers of continuing dental education. ADA CERP does not approve or endorse individual courses or instructors, nor does it imply acceptance of credit hours by Boards of Dentistry. Concerns or complaints about a CE provider may be directed to ADA CERP at www.ada.org/goto/cerp [Tekscan is not responsible for hotel arrangements.]

Ben Sutter, DMD has been studying and treating TMJ dysfunction since going into private practice in 2008. In that time, he has sought advanced education and training in treating neuromuscular issues. His studies have taken him to the Las Vegas Institute, and the Piper Education and Research Center, as well as becoming Perfect Bite Doctor certified.

Robert Kerstein, DMD is recognized as a leading author and researcher in the field of Computerized Occlusal Analysis. He has published several reviewed publications, authored textbook chapters, and most recently, has collaborated as Head Editor with 16 international authors to create the Handbook of Research on Computerized Occlusal Analysis Applications in Dental Medicine.
